Table 2

Results of the research groups

S. No.	Groups	Result A	Result B	Result C

The numbers in the column are aligned according to the place of the decimal point. The text must include a reference to a table, e.g. (Table 2). A single line space is left below the table.

The title and number of the figure are centered and written below the figure, the title of the figure is highlighted (Figure 1), as well.

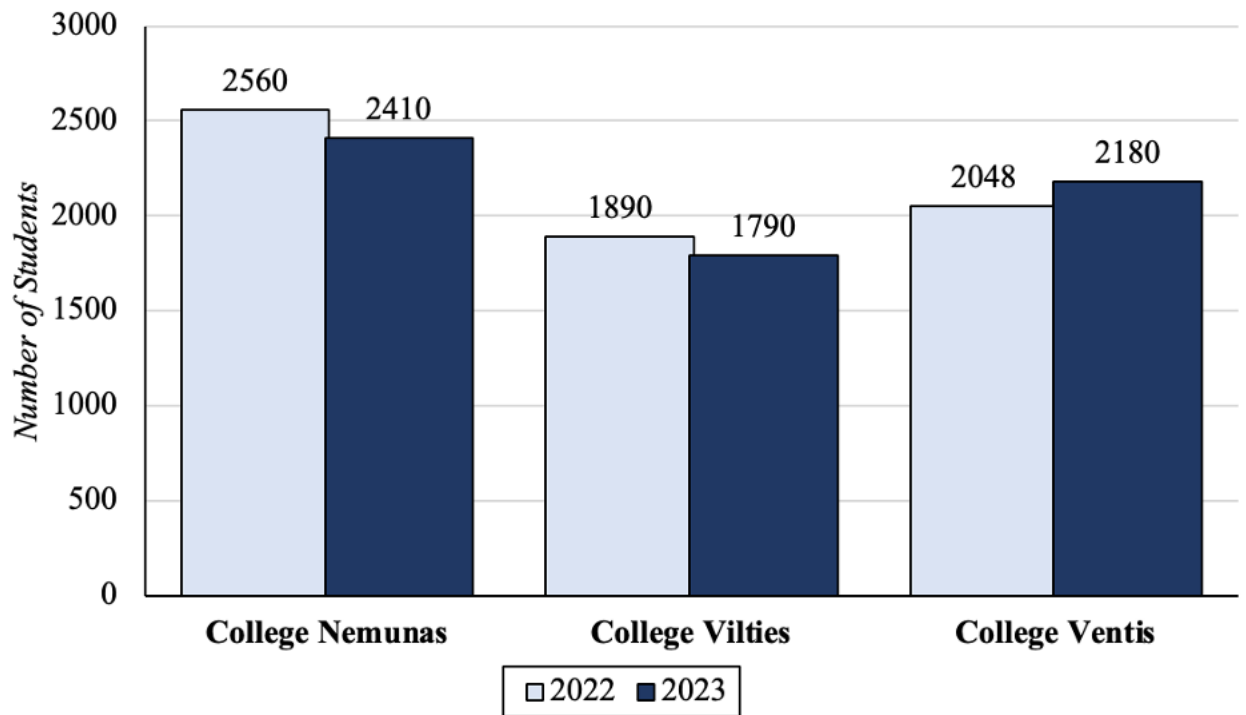

Fig. 1 Changes in the number of students in 2022-2023

The figure must be clear, and each of its elements must be clearly visible and legible. The optimal figure size is a third of the page. The text must include a reference to a figure, e.g. Figure 1. A single line space is left before and after the figure.

Attention, the publication will be in black and white, therefore, before sending the article, make sure that the black and white copies of your diagrams and other figures are informative.
